ICNS 2022

ICNS Introduction

The ICNS Conference highlights research on themes in cultural neuroscience and emerging issues for training and advocacy.

Goals of the ICNS 2022 Conference

- To promote an international scholarly society in cultural neuroscience.
- To support the scholarly activity of research, training and advocacy on cultural neuroscience.
- To support international cooperation and scientific progress in cultural neuroscience.
- To promote global awareness of emerging issues in cultural neuroscience.

ICNS 2022

ICNS Welcome Remarks

Dear Conference Participants,

Welcome! We are delighted to welcome you to the International Cultural Neuroscience Society 2022 Conference on Peace and Justice. The promotion of international peace is foundational to the building of a culture of peace and justice for all.

This year's conference on Peace and Justice focuses on the promotion of the international cooperation and scientific advancement on cultural neuroscience and its practical applications for global mental health and public policy. The development of programs and initiatives for the understanding of the emerging issues of peace and justice benefit from the scientific and societal discourse on the international cooperation and scientific progress on cultural neuroscience.

The development of programs and initiatives that promote discussion of issues of diversity, equality and inclusion of all cultures contribute to the broad understanding of the societal benefits of tolerance and peace for all. The promotion of the global awareness of emerging issues of peace and justice within science and society leads to the advancement of global awareness of the importance of a culture of peace and justice.

Kind regards,

Dr. Jack van Honk, Chair

ICNS Conference Committee, Co-Chairs

Dr. Joan Chiao, International Cultural Neuroscience Consortium

Dr. Shinobu Kitayama, University of Michigan

Dr. Robert Turner, University of Nottingham

Dr. Carolyn Yoon, University of Michigan

ICNS 2022

ICNS Symposium on Cultural Neuroscience

Cultural neuroscience

The ICNS Invited Symposium on Cultural Neuroscience consists of a featured theme on the role of cultural influences on the neurobiological bases of behavior.

ICNS Awards and Prizes Ceremony

Awards and Prizes

2022 Recipients

Distinguished Scientist Award

The Distinguished Scientist Award is in recognition of an outstanding achievement in the senior career of a scientist in the field of cultural neuroscience.

Norihiro Sadato

Mentoring Scientist Award

The Mentoring Award is in recognition of an outstanding mentorship to training scientists in the field of cultural neuroscience.

Tetsuya Iidaka

Young Investigator Award

The Young Investigator Award is in recognition of outstanding achievement in the early career of a scientist in the field of cultural neuroscience.

Yoko Mano

International Cultural Neuroscience Society

Award Announcement

Awards and Prizes

2022 Recipients

Science and Diplomacy Award

The Science and Diplomacy Award is in recognition to a scientist or group of scientists whose exemplary contributions in the field of cultural neuroscience represent outstanding efforts in science and diplomacy.

Yoko Mano

Outstanding Humanitarian Award

The Outstanding Humanitarian Award is in recognition to an individual or group whose exemplary contributions in the field of cultural neuroscience represent outstanding humanitarian efforts in science and diplomacy.

International Cultural Neuroscience and Global Mental Health Network

International Cultural Neuroscience Society

Award Announcement

Awards and Prizes

2022 Recipients

Fields Prize

The Fields Prize is in recognition of a significant accomplishment that represents a substantial contribution to two or more related areas in the field of cultural neuroscience.

Joan Chiao, Shu-Chen Li, Robert Turner, Su Yeon Lee-Tauler, Beverly Pringle

Innovation Prize

The Innovation Prize is in recognition of a theoretical or methodological innovation that represents a significant advancement in the potential for discovery and delivery science in the field of cultural neuroscience.

Joan Chiao, Tetsuya Iidaka, Norihiro Sadato

ICNS 2022

ICNS Forum on Cultural Neuroscience and Human Rights

Co-Sponsor International Cultural Neuroscience and Human Rights Network

ICNS Forum on Cultural Neuroscience and Human Rights

Ensuring peace and justice is necessary for sustainable development. Peace and Justice are a fundamental component of the fulfillment of economic social and cultural rights. Research in cultural neuroscience contributes to the discovery and delivery science of cures, preventions and interventions in global mental health. The goal of this meeting is to discuss contributions in cultural neuroscience to achievement of the highest standards of Peace and Justice as a fulfillment of economic, social and cultural rights. The presenters will speak on cultural neuroscience and the fulfillment of human rights.

ICNS 2022

ICNS Closing Remarks

Dear Conference Participants,

Thank you for attending the 2022 Conference on Peace and Justice of the International Cultural Neuroscience Society. The international cooperation on peace and justice is important to the support and promotion of peace and justice at all levels. The recognition of the importance of the promotion of peace and justice is foundational to the building of strong institutions and nations.

The development of programs and initiatives that promote inclusion diversity and equality of interracial and ethnocultural relations is foundational to the advancement of peace and justice around the world. The building of global awareness of the importance of the advocacy of international peace advances the support and promotion of the inclusion, diversity and equality of all.

Understanding the importance of a culture of Peace and Justice contributes to the equitable societal conditions that benefit health and society. Efforts to ensure the highest standards of Peace and Justice are paramount to the achievement of the health equity of nations.

Building awareness of peace and justice is important for the attainment of health equity in a global context.

We are truly grateful to members for their support. We look forward to seeing you next year.

Kind regards,

Dr. Joan Chiao

ICNS 2022

ICNS 2022 Advocacy and Policymaking

Peace and Justice

The ICNS 2022 Conference Theme on Peace and Justice centers on the international cooperation to support scientific research on mental health around the world.

The ICNS 2022 Conference highlights research on cultural influences on Peace and Justice.

Research themes of the ICNS 2022 Conference include the following:

- Cultural neuroscience
- Culture, cognition and aging
- Cultural neuroscience and global mental health
- Cultural neuroscience and public policy

The ICNS 2022 Conference supports international research and training on cultural neuroscience that builds global awareness of mental health.

- Build awareness of the importance of mental health around the world.
- Share international research on cultural neuroscience.
- Discuss the impact of international research on cultural neuroscience for mental health practice.
- Discuss the impact of international research on cultural neuroscience on mental health reform.
- Connect with other cultural neuroscience researchers on emerging issues in global mental health.

ICNS 2022

ICNS 2022

ICNS Conclusion

The ICNS 2022 Conference promotes the scholarly activity of the members of the ICNS.

The ICNS 2022 Conference supports the international cooperation for the advancement of scientific progress in cultural neuroscience.

The ICNS 2022 Conference supports international research and international training in the field of cultural neuroscience.

The ICNS 2022 Conference promotes global awareness of emerging issues in cultural neuroscience and global mental health as well as cultural neuroscience and public policy.

ICNS 2022

ICNS Future Conferences

- ICNS 2023 (USA)
Theme on Maternal and Child Health
Conference Chair, Dr. Tamara Lewis-Johnson (NIH)

12 and 13 October 2023
- ICNS 2024 (USA)
Theme of Gender Equality
Conference Chair, Dr. Elizabeth Losin (University of Miami)

10 and 11 October 2024
- ICNS 2025 (Japan)
Theme on Women's Empowerment
Conference Chair, Dr. Tetsuya Iidaka (Nagoya University)

9 and 10 October 2025
